

2007 Caldwell Petit Verdot

Varietal Collection

ESTATE GROWN

- Vintage:** Second
- Composition:** 100% Petit Verdot
- Appellation:** Napa Valley, Coombsville District
- Vineyard:** Caldwell Vineyard Estate, Established 1981
- Elevation:** 500 feet above sea level;
Hillside, with 5% to 30% slopes
- Climate:** The Coombsville region, with its close proximity to the San Pablo Bay, has a very unique climate which allows for an extraordinarily long growing season without the extreme hot and cold temperatures that can be experienced in the rest of the Napa Valley.
- Soils:** Shallow soils, 2.5 feet deep, reddish brown in color. Rare to Napa Valley, a combination of volcanic ash, Sobrante loam and stony clay and rocks.
- Tasting Notes:** Intense black cherry, blueberry leads this complex nose that also highlights anise, cinnamon, vanilla, and fresh mint.

A juicy attack of fresh red raspberry gives way to a full mouth of red plum and boysenberry laced with cocoa. Elegant layered chocolate covered strawberry tannins hold the palate together prior to a long finish of sweet vanilla, nutmeg, and fresh coffee grounds.
- Ageing:** 8 – 12 years
- Production:** 44 cases
- Price:** \$65.00 per 750ml bottle

2007 Caldwell Petit Verdot

Varietal Collection

ESTATE GROWN

Proprietors: John and Joy Caldwell | Viticulturist: John Caldwell | Winemaker: Marbue Marke

VARIETAL COLLECTION

Vineyard Petit Verdot Block

Block 17: 1.0 Acres

Clone: 400

Rootstock: 3309

Yield: 3.0 Tons per Acre

Average Vine Age: 4 years

Viticulture

Green Harvesting: End of July to first week of August (varies per exposure).

Deleafing: Very selective pulling after bloom towards end of May and a 2nd Pass in June/Early July.

Harvest Date: October 15th, 2007.

Vintage Summary: The 2007 Vintage was marked by a perfect growing season and challenging conditions during ripening season. An ideal bloom was followed by an ideal set. The ripening season started with a heat spell then the weather turned cold delaying maturity. Several rains challenged picking decisions. The vintage turned out to be very late but the fruit that made it through the weather was fantastic. Medium berry sizes with good flavor and thick skins came in with a normal yield.

Winemaking

Fermentation: 59-Gal Barrel Fermented (100% New French Oak)

Yeast: Natural

ML: Vinoflora Oenos

Blend: 100% Petit Verdot

Coopers: Tonnellerie Baron

Wood Origin: Tronçais, Loiret

Ageing: 22 months in barrel

Percentage of New Barrels: 100% Brand New

Topping-Up: Every 2-Weeks

Fining: No Fining

Filtering: No Filtration

Alcohol: 14.9%

Bottling: Bottled on July 25th, 2009.

2007 TANNAT (CLONE 474)	\$65.	50 CASES
2007 SYRAH PORT (CLONE 470)	\$65.	37 CASES

ABOUT CALDWELL

Caldwell Vineyard

Region: Recognized for its unique terroir for over 40 years, Coombsville is in the process of gaining AVA status. It is approximately 11,200 acres with over 900 acres planted to grapes. The area is nestled in the southeastern region of the Napa Valley, between the city of Napa and the western ridge of the Vaca Mountain Range. The region constitutes about 3% of the Napa viticultural area.

Established: Originally with 53 acres in 1981. Over the years, the vineyard's high quality fruit has been the grape source for other noted high-end wine producers such as Pahlmeyer, Viader, Joseph Phelps' Insignia, Phillippe Melka, Merus, Mia Klein, and Patz&Hall.

Vineyard: Currently 123 acres, of which 65 acres are planted to grapes. 85% of the vines are French clones, with the remainder UC Davis certified California clones.

Average Vine Age: 20 years

Average Yield: 3 tons per acre

Grape Varietals: Cabernet Sauvignon 26.2 acres, Syrah 13 acres, Chardonnay 7.4 acres, Merlot 6.4 acres, Cabernet Franc 3.2 acres, Petit Verdot 1.5 acres, Sauvignon Blanc 1.5 acres, Tannat 1.1 acres, Carmenere 0.7 acres

Facility: Wine production takes place 100 feet underground in a 20,000 square foot cave on the estate. We also provide custom crush for other small wineries.

Fermentation: Primarily barrel fermented, traditionally a method reserved for whites, is executed in small French oak barrels to allow for a smoother integration of the oak and fruit tannins. The little wine that is not barrel fermented is carried out in stainless tanks.

Maceration: The juice from the various varietals undergoes an extended maceration before the young wine is pressed. Depending on varietal and vintage, maceration is 25–45 days.
